

FEED BACK FOR DRC 10TH NOV 2004

WHAT WENT WELL TODAY?

- Every one liked the morning session. Medically unexplained symptoms (MUPS) by Chris Bass was regarded as excellent – very useful –practical .
- Soap box –Herbal medicine – very useful and well presented.
- Paper – useful
- PDP plans – useful – keep it simple!

WHAT WENT NOT SO WELL?

- Most didn't comment
- Some mentioned morning session slightly secondary care orientated and less relevant for primary care
- Few mentioned PDP should be before appraisal
- Time keeping especially by course organisers

SCORES

- Morning session – 5-6
- Afternoon session – 4-5

LEARNING POINTS FROM THE DAY

- Structured approach to poly symptomatic patients with no medical diagnosis
- Role of PDP in general practice
- Herbal medicine and their interaction (parsley is toxic in overdose!)

WHAT DO PEOPLE WANT TO LEARN MORE ABOUT

- More on complementary medicine
- More on MUPS – with video consultation
