Subject: [SwindonBathDRC] feedback 17/11/04

Hi

Sorry it is a bit late but here is the feedback from DRC 17/11/04

What went well

Paper - well presented, interesting one to critically appraise
Soapbox - went well, interesting, entertaining
HRT talk - very practical, good, well presented, interesting re MWS , informative
Breast talk - very informative and clear, easy to understand, interactive
GMS - good handout and discussion

What did not go well

HRT - slightly opinionated speaker, basics would have been helpful and summary, confusing, case histories take too much time
Breast - would be better to go through current guidelines, no need to discuss in small groups, dull

Scores

HRT - 4.54
Breast - 4.15
GMS - 4.43

Learnt today

clearer picture of HRT, pros and cons of different types, HRT research,
what patients can expect at breast clinic, will not automatically refer nipple discharge, about referring breast lumps
new contract in practices
