**Subject:** FW: Trainers Day 19th January

Dear All

Please see below an email from Jon Elliman reference the DRC Trainers' day on Wednesday 19 January 2005. This is to be held at the Education Centre, Great Western Hospital, Swindon.

In order to ensure a successful day, please could I kindly ask you to confirm your attendance to Siobhan Timms at the earliest, her email is [Siobhan.Timms@smnhst.swest.nhs.uk](mailto:Siobhan.Timms@smnhst.swest.nhs.uk).

May I take this opportunity to wish you all a very Merry Christmas and an even merrier 2005!

Best wishes

Paula Cain

**Subject:** Trainers Day 19th January

OK folks, here's the plan. Our multi-talented trainers are going to lay on an extravaganza of a day for you, but we need a bit of help. We are going to have five small group sessions running through the day (you will get to all of them). For the middle part of the day we are going to have Roger Neighbour (RCGP president) talking to us about a variety of things.

The trainers have given me some topics that they would be happy to run sessions on. These are listed below. Please email me on [j.elliman@ntlworld.com](mailto:j.elliman@ntlworld.com) (if you just click on reply, it will go to the whole group) with your favored 5 topics in order of preference. If there is anything else you would like covered (bearing in mind that these are short, 20-30 minute sessions only) add them to the list. Please reply by the end of December (I know that's tight, but the best thing is to do it by return). I will let you know when we have the final timetable sorted out.

When choosing your five topics, please only choose 1 from each of the groups below (otherwise we'll have one trainer trying to be in 2 rooms at the same time, and although they are versatile.....!)

Biological Weapons  
Disaster Management

Subfertility For GPs  
Contraception Update

Running an Out of Hours Service  
Appraisal

Mental Health Assessments  
Ischaemic Heart Disease  
Diabetes  
Chronic Disease Management

Heartsing (the joys of General Practice)

The tired patient  
Endocrinology for GPs

22/12/2004

Diabetes

Asthma vs COPD  
Spirometry

Oncology topic (eg Breast cancer follow up)  
Appraisal

Finally, when I spoke to Roger Neighbour, he said he might do something about consultation issues in his session, which might require some videos to look at. Could any TAGs or GPRs (or indeed trainers) who are doing some videoing bear this in mind and keep some by incase he goes ahead with this plan.

All the best

Jon
