Subject: [SwindonBathDRC] feedback

Firstly apologies for the lateness of the feedback- our broadband has been down since last week.

Well, all in all the day seemed to be well received by most.

Good things about the day:
Good paper choice- very topical and well presented
Good soapbox- interesting and funny- which should help to remember it
Enjoyable groupwork- very relevant issue- good for MRCGP
Urology talk was relevant and people seemed to enjoy the scenarios

Things that weren't so good:
People felt the urology talk had lots of repetition - 'a little too long and drawn out'
The feeling was that the use of small groups in the urology wasn't useful 'would have been better just to discuss in whole group'
People prefer the groupwork in the afternoon
Parking in Swindon is difficult

Learning points:
Interpretation of PSA
How to approach erectile dysfunction
Issues related to homelessness
Management of sterile pyuria

People would like to learn more on:
Urinary problems in women
Statistics
Drug and alcohol problems

The range of scores for the morning was 4-6, average 5
For the afternoon the range was 2-6, average 5

Hope this was useful,
Hope you all have a good week, See you soon

Simone
