### FEEDBACK

Paper Review - lots of people thought it was good, relevant, well done, methodical. A good review of a rubbish paper.

News - good excuse to buy the tabloids! Most people thought it was funny, good, entertaining. 2 people commented that it may have lacked concrete news items.

Neurology - helpful, good, excellent. 1 person said that some case presentations may have been good. 10/10. Good summary, well structured and relevant. Good opportunity to ask questions.

Headaches - As above ie excellent, useful, relevant. 1 person thought that diagnosis should have been covered as well. 1 person thought it was poor ('very superficial, with no really helpful tips') 1 person thought the presentation was slightly confusing but with good info.

Hiccups - nice and brief. good. useful and interesting.excellent. 1 person thought the pace could have been a bit slower. 1 person said hmmm. (dont know what that means). very educational. short and sweet and quite intellectual. Mainly people found it interesting and nicely concise.

Risk Management - people doing the exam thought it was a good review for that. 1 person thought it was poor. Several people thought it was nicely practical ie balancing individual risk, others thought it could have been more so. Good communication tips, good presentation of a difficult topic. Most people thought it was good -excellent. The handout was appreciated. A few people commented that it was quite a long afternoon.

Everybody loved the venue.

#### Other comments:

Several people liked mixing with the SHOs. 1 person commented that the smaller group size was good.

1 person felt that something a bit more interactive in the afternoon would be good.

1 person said that the risk management talk was oversimplified and not 'real world'

1 person said that her stomach was rumbling cos it was too long till lunch.

1 person asked whether the MPS scare stories were strictly necessary

Dodgy laptops

All very positive really.

I will bring the forms back next time we meet for folders etc if you want them.

Good luck to all exam takers.

Georgia
